Pearlescent Inks

Private Reserve Ink introduces 6 brand new holographic silver spectrum colors: Pearlescent Black-Silver, Pearlescent Blue-Silver, Pearlescent Red-Silver, Pearlescent Orange-Silver, Pearlescent Turquoise-Silver, and Pearlescent Violet-Silver. Rediscover the visible electromagnetic range with these new Pearlescent-Silver fountain pen inks. Feel the silver-infused liquid flow out of a fountain pen illuminating your thoughts with a luxurious touch. Experience empowering energy with every new letter you write as your fountain pen inspires new ideas into fruition. Whether, it is a special occasion card, a daily journal, artwork, or an important project, the pearlescent ink will turn it into a marvelous masterpiece. To achieve this glorious sparkling look the ink is infused with shimmering metal particles that produce the best glittery sheen. For best results, **shake the ink bottle very well** in an hourglass-like motion before filling. Repeat the same motion for the pen. Turn the pen upside down and back up again every so often to evenly distribute the silver throughout. The ink works great with any fountain pen and all nib sizes. Revolutionize the art of writing!

The Private Reserve Infinity Ink™ ∞ with the E.C.O. (extended cap off) Formula.

Private Reserve Inks is proud to announce a break-through in fountain pen ink technology that is truly a game changer for the fountain pen industry.

For many years, the Private Reserve team worked on creating a new ink formula which allows a fountain pen user to leave the pen capless for a long period of time.

Until now, writing with a fountain pen required users to cap the pen often to avoid the ink from evaporating, drying and clogging the feeding system. We are happy to report that after many years of research and testing we finally succeeded. To the best of our knowledge, we are the first and only company to offer this kind of ink.

So, why did we name it ∞ Infinity?

We tested the ink in a fountain pen with its cap off for many hours and the performance was stellar!

If you write with your fountain pen intermittently, theoretically, it can be cap-off "forever".

We offer the ∞ Infinity Ink collection in our beautiful 60ml luxury ink bottle.

The inks come in six (6) glorious and bright colors: *Violet, Turquoise, Red, Blue, Green and Black.*

The Infinity ink is a game-changer for every writer and artist around the globe as it will eliminate the factor of worry about the pen's ink and redirect all the attention towards writing or creating artwork.

The ink works with all types of fountain pens and all nib sizes, and creates infinite possibilities for all types of uses. Because of its unique features, the infinity ink is mess and smudge free; excellent for calligraphers and writers alike.

With this new technologically advanced ink formula, we hope to encourage many new consumers to use fountain pens in their personal and professional lives. Forget the worry and enjoy the infinite flow of ink.
