JOIN THE *Creative Refill-ution*

“We deserve better – why should the tools we use to express ourselves as individuals be so soulless, utilitarian and so often, disposable?”

— Tom Gyr, Founder of Tom’s Studio

It all began 8 years ago

When Tom saw his wife (a professional calligrapher) using a tool that was mass-produced and not at all reflective of the amazing quality of her work, he decided to hand make her a better pen she would love using every day.

There’s a big problem to solve

Disposable pens: At least 9 billion pens are thrown away annually, and some of our most loved disposable pens, such as the BIC Biro, have been produced in eye-watering numbers (over 100 billion!), creating mountains of toxic landfill.

And today...

Tom’s Studio has created a range of timeless designs that allow a global audience of writers, illustrators, designers, teachers, and artists to follow their creative pursuits while using a tool to be proud of, without the need to throw away billions of pens.

Our beliefs set us apart

The power of creativity

The creative tools we use should enhance the experience, serving as reliable companions that you can count on to create your best work. My mission is to create extraordinary tools that people love using every day.

There is a more responsible way

In a nutshell, my approach to sustainability is to design products made from incredibly durable materials, where every individual part can be separated (no glues, overmolding) so they can be recycled, easily replaced and without using anything with planned obsolescence (think pen 'refills' and disposable pens).

The best quality tools create the best experience

Using engineering technology normally reserved for creating parts for the aerospace industry, I am able to create super delicate and intricate details as well as fine-tune balance and finishes – blurring the boundaries between engineering and creativity.

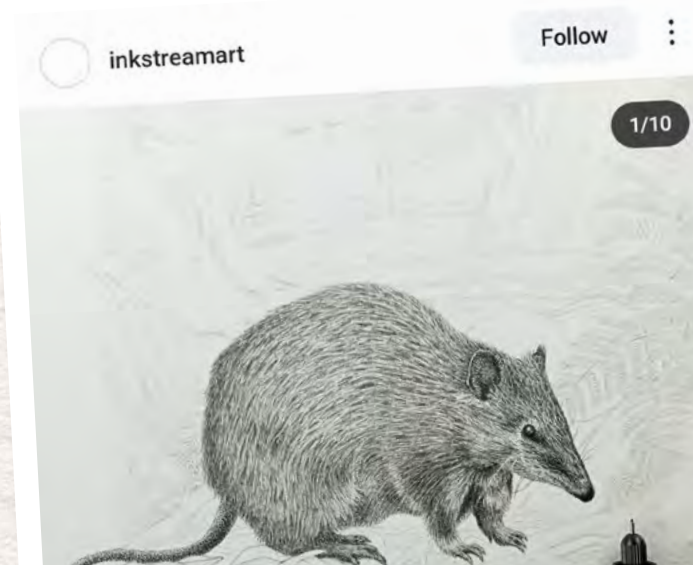

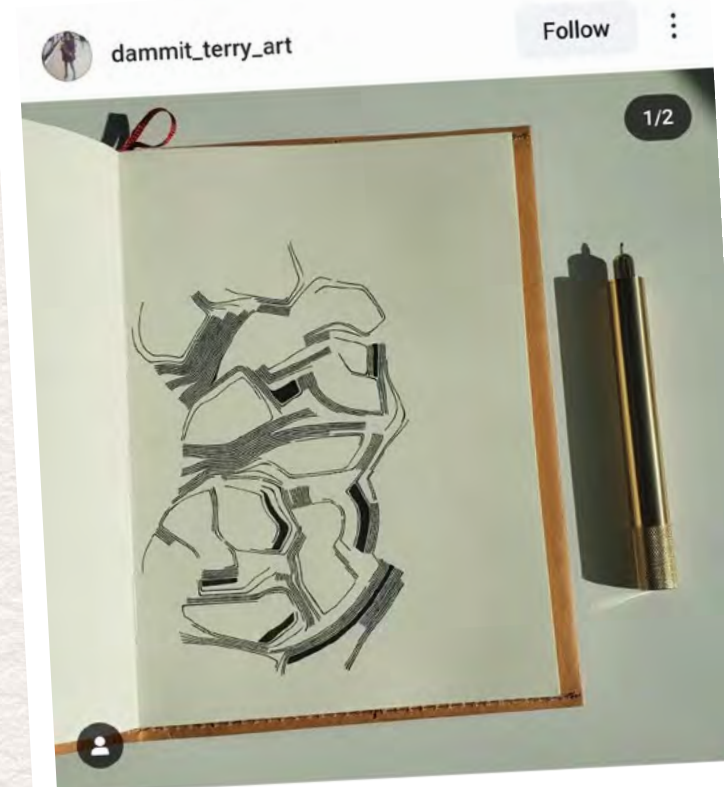

The power of community

At Tom's Studio, we have nurtured an incredible community of over 150,000 artists, writers, calligraphers, and passionate creators through creative challenges, sponsoring events, and providing educational resources. Their boundless creative energy fuels our mission to craft extraordinary tools you'll feel proud to wield daily as you bring your next big ideas to life.

Adored across the world

Over 1300 five-star reviews
from around the world.

"I think I've found my forever pen. I'm not an illustrator or calligrapher I just wanted a felt tip pen that was not disposable but I got a lot more than that. The ink flows so beautifully and it feels lovely to write with."

— KM

"Love this pen. I recently purchased a single sided Lumos pen and absolutely love it. Everything about it is easy from how you can refill the ink cartridge to the way it writes. Perfection!! Thank you!!!!!!"

— Andrea P

"Absolutely stunning!! The weight feels lovely in my hand. I have used two of the nibs so far (bullet and brush), and I am over the moon with it!! Would definitely love to collect the other colours in the future!"

— Leah

REAL ARTISTS, CALLIGRAPHERS,
AND PEOPLE LOVE OUR PENS...

Illy Boo

 @illyboodesigns

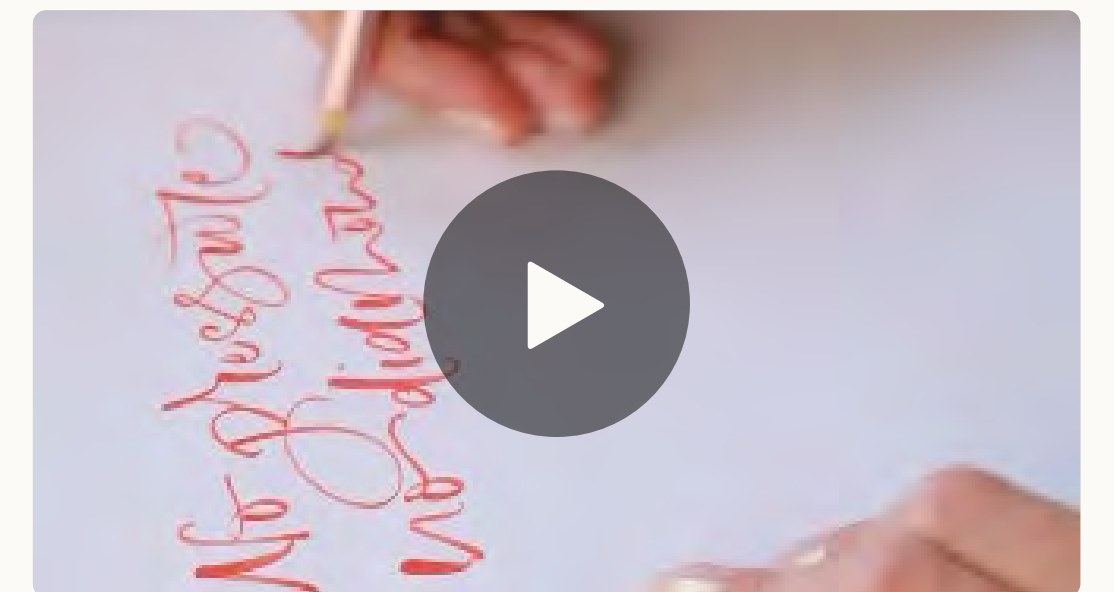

Although I still consider myself a bit of a newcomer to the world of modern calligraphy, I have many years of creative experience under my belt. From studying fashion and knitwear at the Royal College of Art in London to working in New York, so I've definitely developed a great eye for beautiful design.

My love for calligraphy properly began the first time I picked up a nib and eagerly set myself the challenge to create all my own wedding stationery. Since then, I never looked back and decided to set up Illyboo Designs, to share my passion for calligraphy.

"I've used many versions of the mono tip style pen throughout my design career... Most of the tips would get flattened upon use way before the ink had time to run out. The Lumos gives me ability to refill and load up different coloured ink whenever I need! What's not to love? Making it a brilliant alternative to less sustainable brands!"

Near Ajcivinac

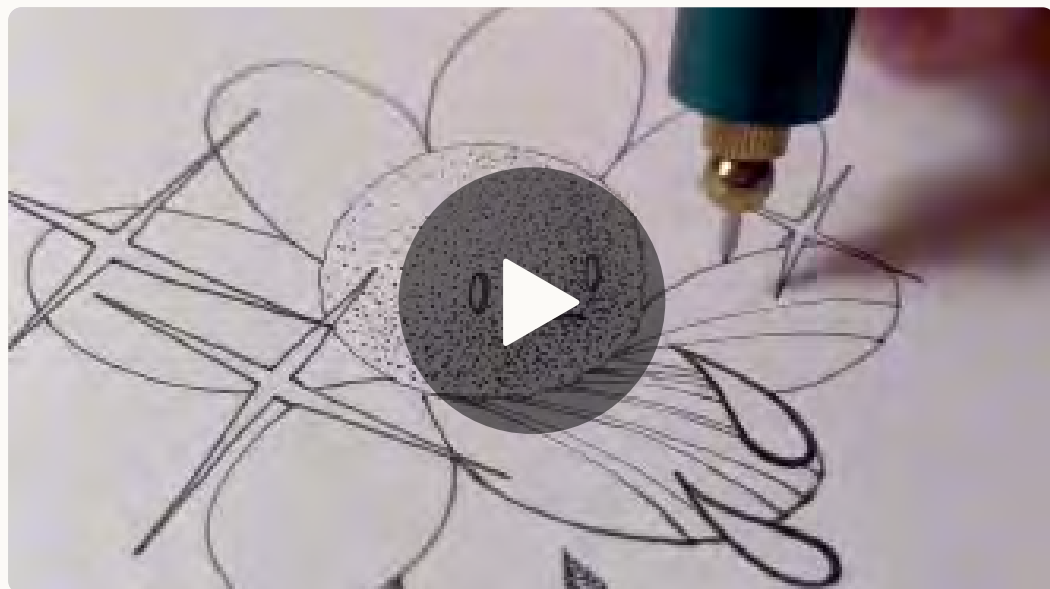

"I remember I was always copying Dragon Ball characters and when I was a bit older, maybe 11-12, I started to listen to bands and I used to copy the CD covers, replicating them in different techniques like pencil, ink, markers and crayons..."

 @nearajcivinac

Hello I'm Ricardo Ajcivinac, more commonly known as Near. I'm a Guatemalan based multidisciplinary artist and designer. I love everything about drawing, illustration, murals, graffiti and graphic design.

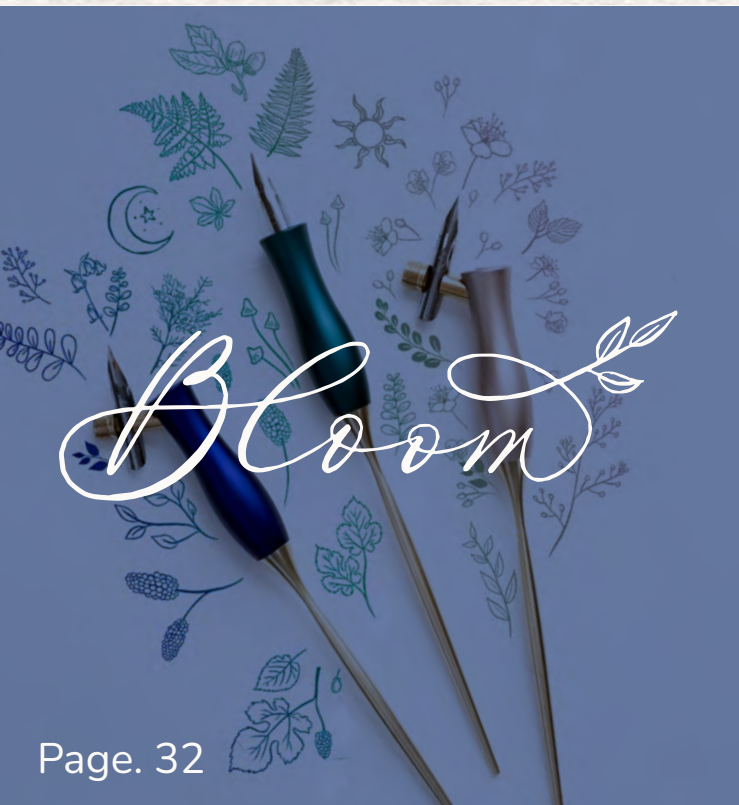

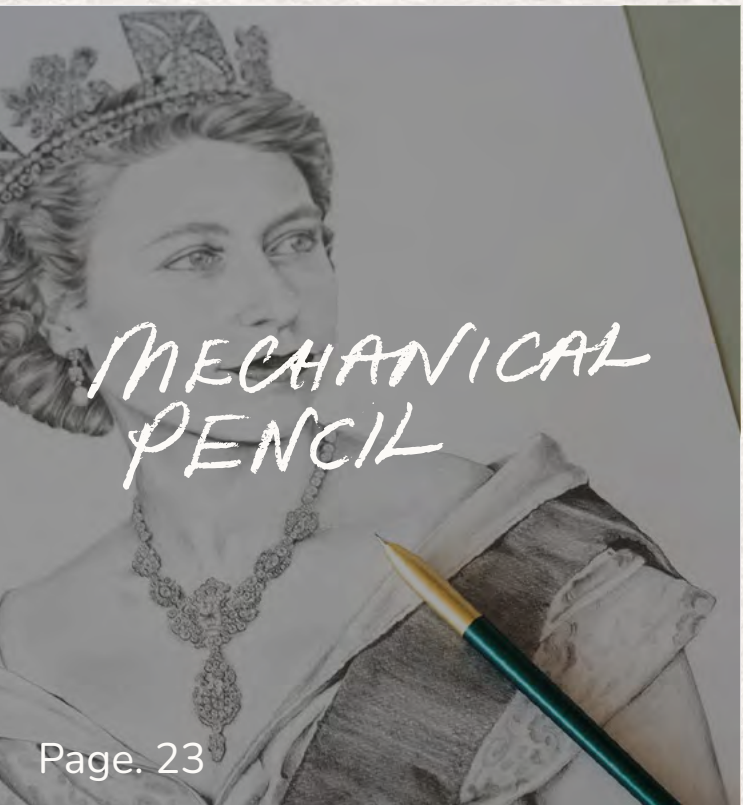

Since 2007 I've participated in many local exhibitions and in 2010 I was on the cover for the January edition of Digital Arts. In 2011 I was selected as the 3rd. place for the Latin American solo category, in the All Ironlak Graffiti Competition 2010. In 2014 I participated in the Meeting of Styles Mexico and since 2016 I've been working as a tattoo artist and have travelled to Iceland, London, Amsterdam, France, Argentina and more to tattoo.

WARD SHAW

Beginning

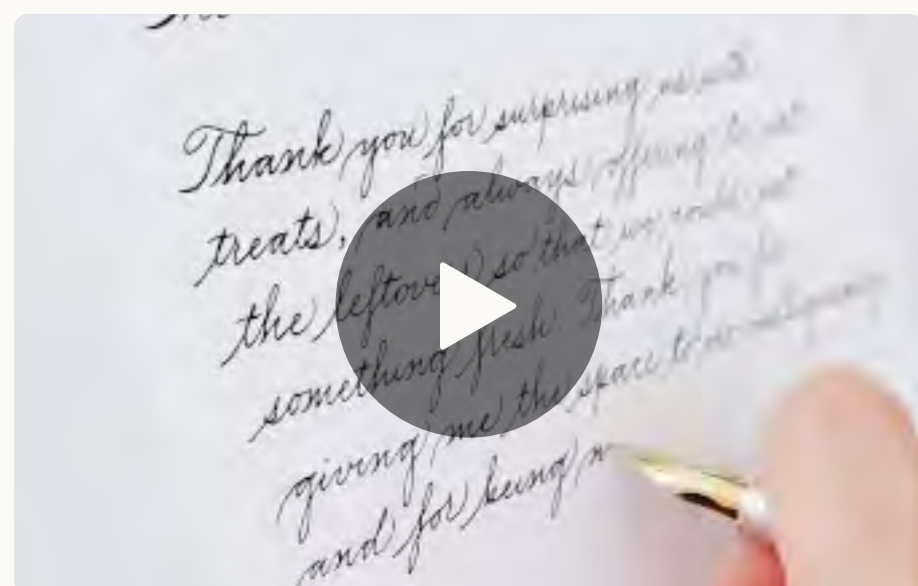

Studio Pen

A fountain pen, made for everyday creativity.

Studio Pen

A fountain pen... just more fun! Your new companion for everyday writing or creative expression. A beautifully designed fountain pen with an incredible selection of nibs, making it the only tool you'll need to hand to ignite your creativity.

Take a look at the Studio Pen in action

"I've bought lots of fountain pens (Sheaffer, Parker, Pelikan) in search for the one. Since I found the Studio Fountain Pen by Tom's Studio, I've stopped looking. It's the one I'll use for the rest of my life; I almost dare not say it, but - it's perfect."

— Nicholas L, UK

Reassuring weight and clever cap design, making for a lighter, more comfortable writing experience.

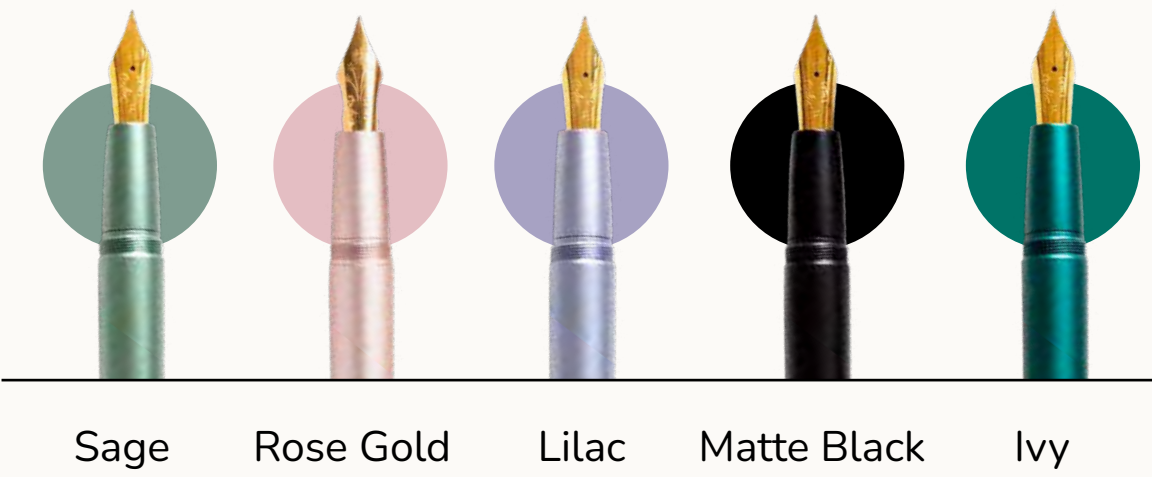

Choose between a selection of interchangeable nibs; Extra Fine Semi-Flex, Fine, Medium, Titanium Semi-Flex, Cursive Italic and Architect.

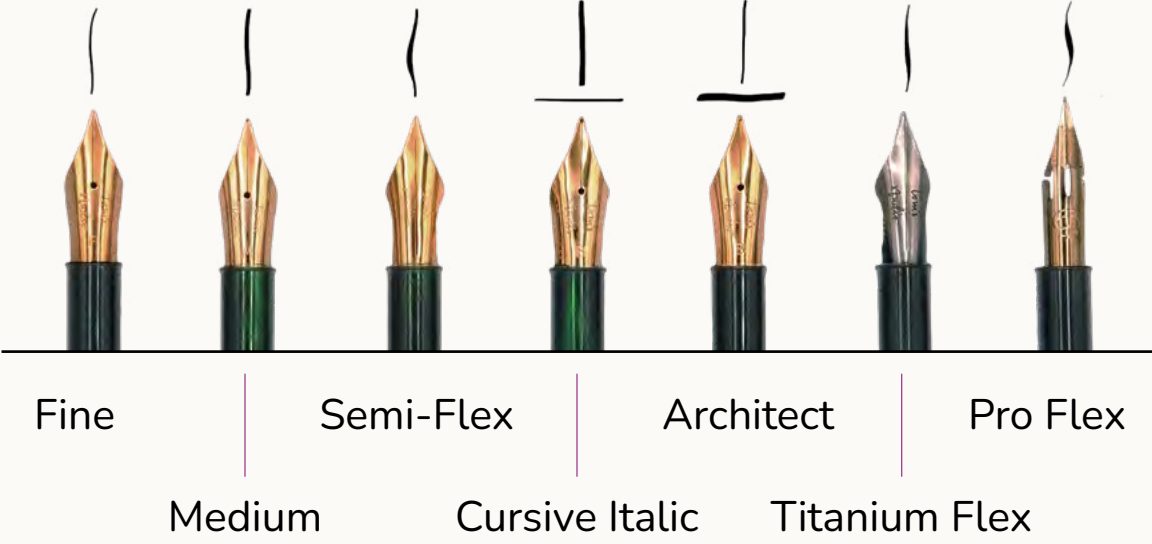

Five beautiful hand dip-dyed colours.

Studio Pocket Pen

Your new creative sidekick.

Studio Pocket Pen

This little pen packs quite a punch despite it's diminutive size. Measuring 99mm when capped and a whopping 163mm assembled, it feels like a full size pen perfect for all hand sizes. This is a zero-compromise pocket pen with a fantastic selection of interchangeable nibs.

Take a look at the Studio Pocket Pen in action

“The level of craftsmanship in my fountain pen is astonishing. The convenience as a fountain pen is completely unexpected. It writes beautifully every time I take it out of my pocket and put it together.”

— Peter W, Australia

Balance that sits perfectly in the centre of the pen.

Extra long grip area with added micro-grooves for extra grip.

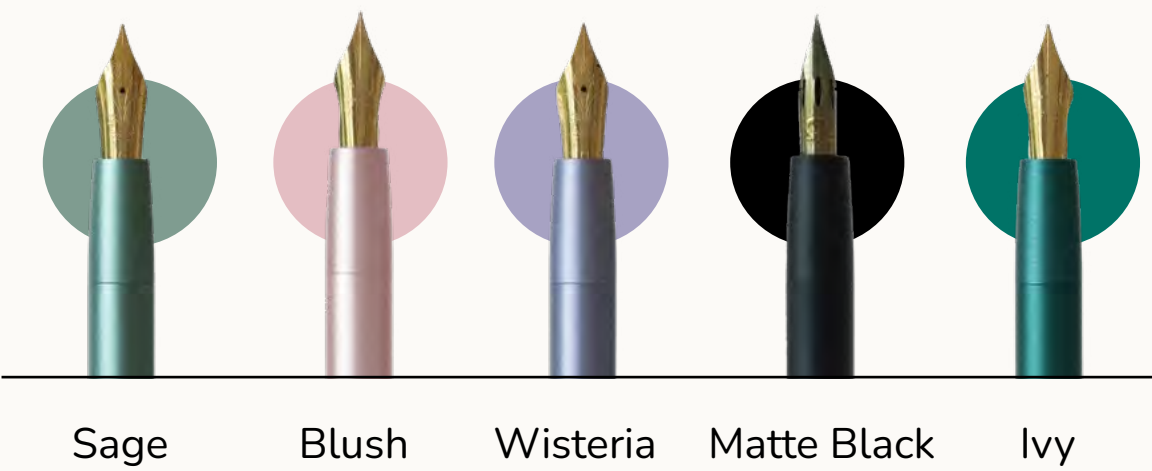

A handy ink syringe (included) gives you the ability to refill your ink cartridges!

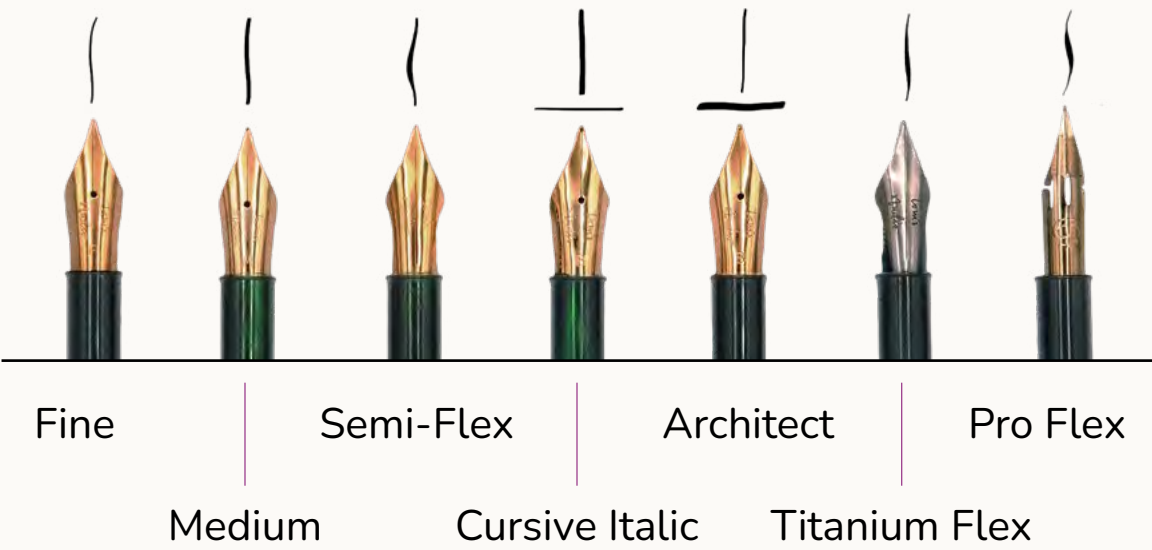

The innovative octagonal shape creates a natural roll stop.

MECHANICAL PENCIL

The best mechanical pencils often combine materials to create the perfect balance in the hand, and the Tom's Studio pencil is no exception.

MECHANICAL PENCIL

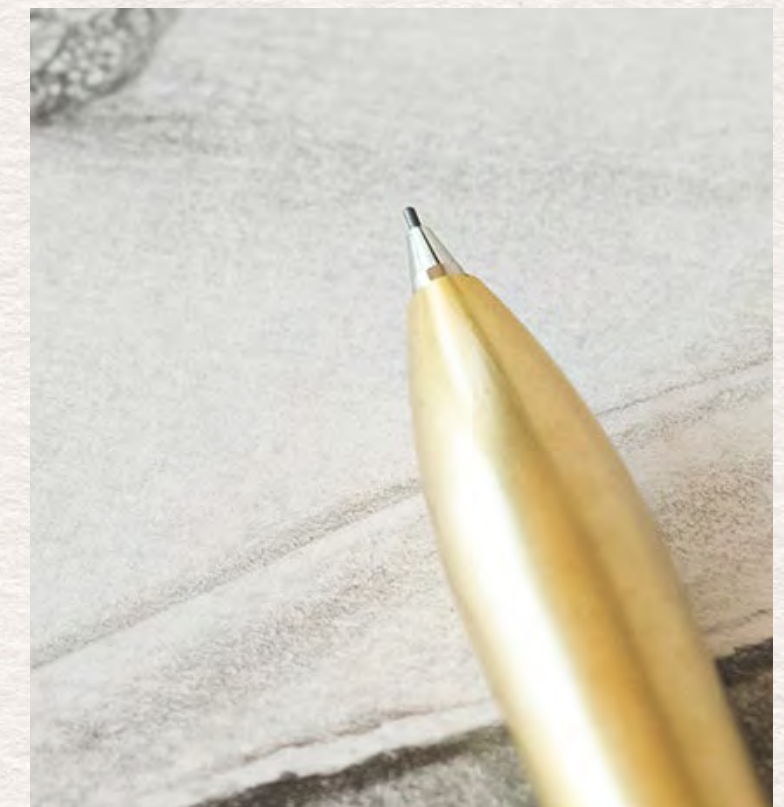

Made from beautiful long-lasting materials, which are recyclable and easily replaceable. With its unfussy, simple and timeless design, along with its satisfying click, this pen is a joy to use and the one you always want to reach for.

Take a look at the Mechanical Pencil in action

“The balance! This is simply the perfect pencil. Immediately, it reaches to touch the paper, the weight, the balance... it’s delicate and clear in its presence. A perfect drawing experience. I bought a second for my husband who also loves it.”

— C, USA

Made using a Swiss, sliding head lathe, meaning it's precise to 0.02 of a millimeter.

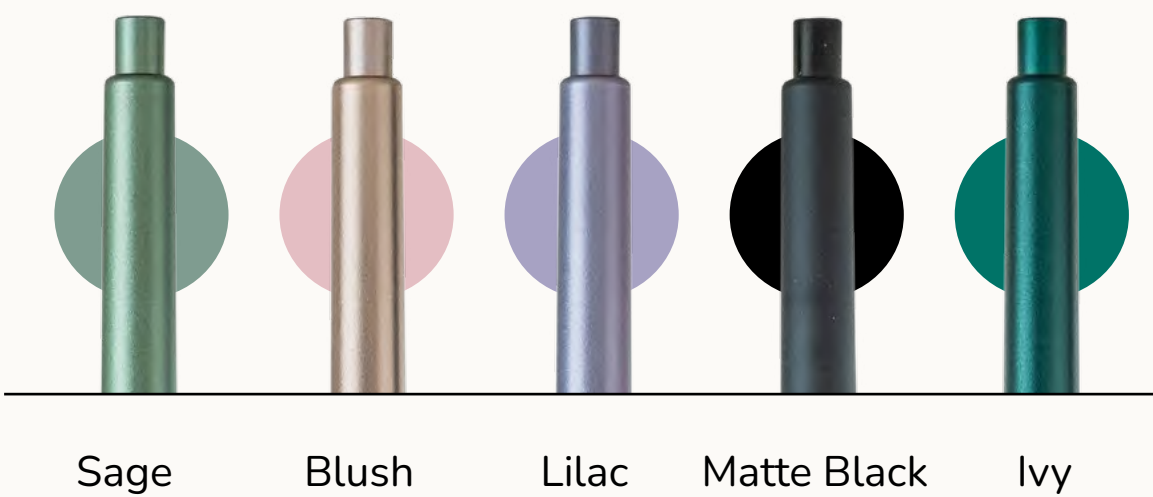

Perfect balance, with the pencil ever so slightly more weighted towards the tip.

Replace the leads and you can reuse your pen for decades to come.

MECHANICAL PENCIL

Colourways

Includes
3 x HB leads.

Carrot

Designed for those who like a compact pen holder and a lovely curved body for improved grip and stability.

Reassuring weight paired with the body shape of the carrot will mean you barely have to hold the pen when you write (it will do a lot of the work for you) helping you to avoid the dreaded ‘calligrapher claw’ and improve your technique in the long run.

Take a look at the Carrot in action

“I’ve wanted a Carrot for so long and my assumptions were right... I love it! It feels wonderful in my hand and being able to adjust the flange... wow!”

— Karla J

Perfect for left or right handed calligraphers.

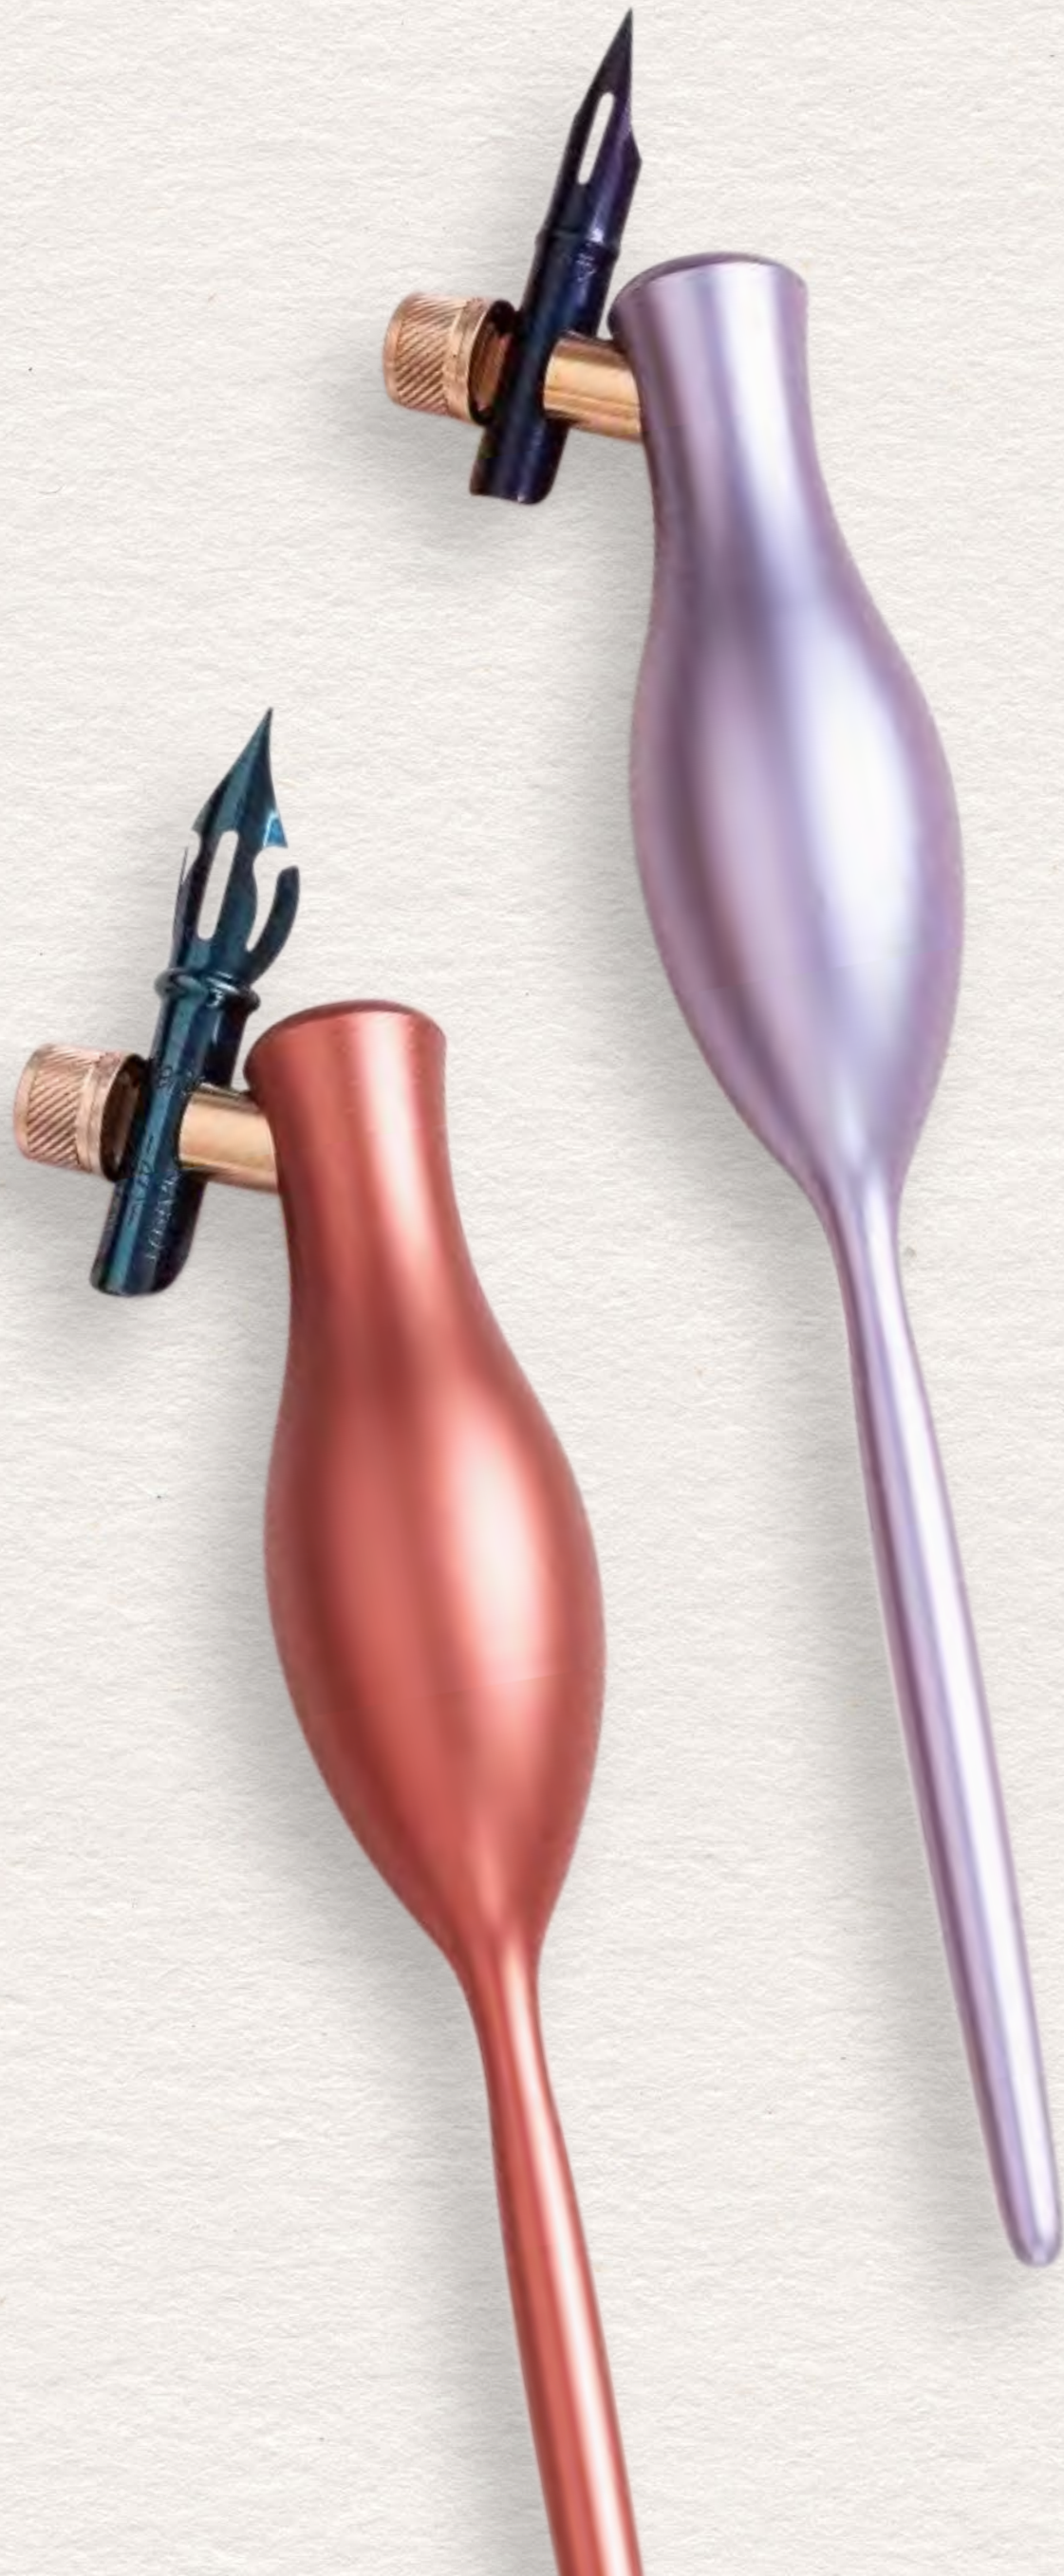

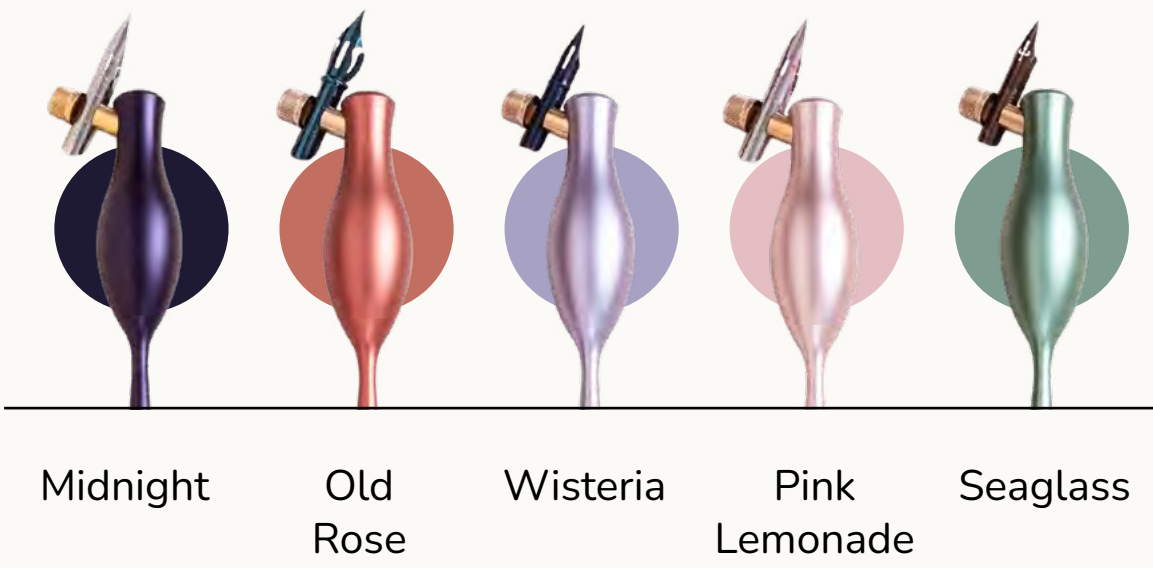

Built to last and machined from solid metals on a lathe used for making fine watch and aerospace grade components.

Reassuring weight paired with the body shape of the carrot will mean you barely have to hold the pen when you write.

Bloom

A beautiful and balanced calligraphy pen
designed to make your work blossom.

Bloom

Our most versatile, balanced and beautiful calligraphy pen to date. With it's organic compound curves, the body of the pen is as beautiful as it is functional.

Take a look at the Bloom in action

“This a beautiful well made nib holder that is so nicely balanced, and feels so comfortable in my hand. I will definitely look forward to more writing with this beautiful tool.”

— Yvonne, Canada

Nib tins, who needs 'em. Your Bloom conceals up to 3 nibs, so you can easily take your favourites with you wherever you go.

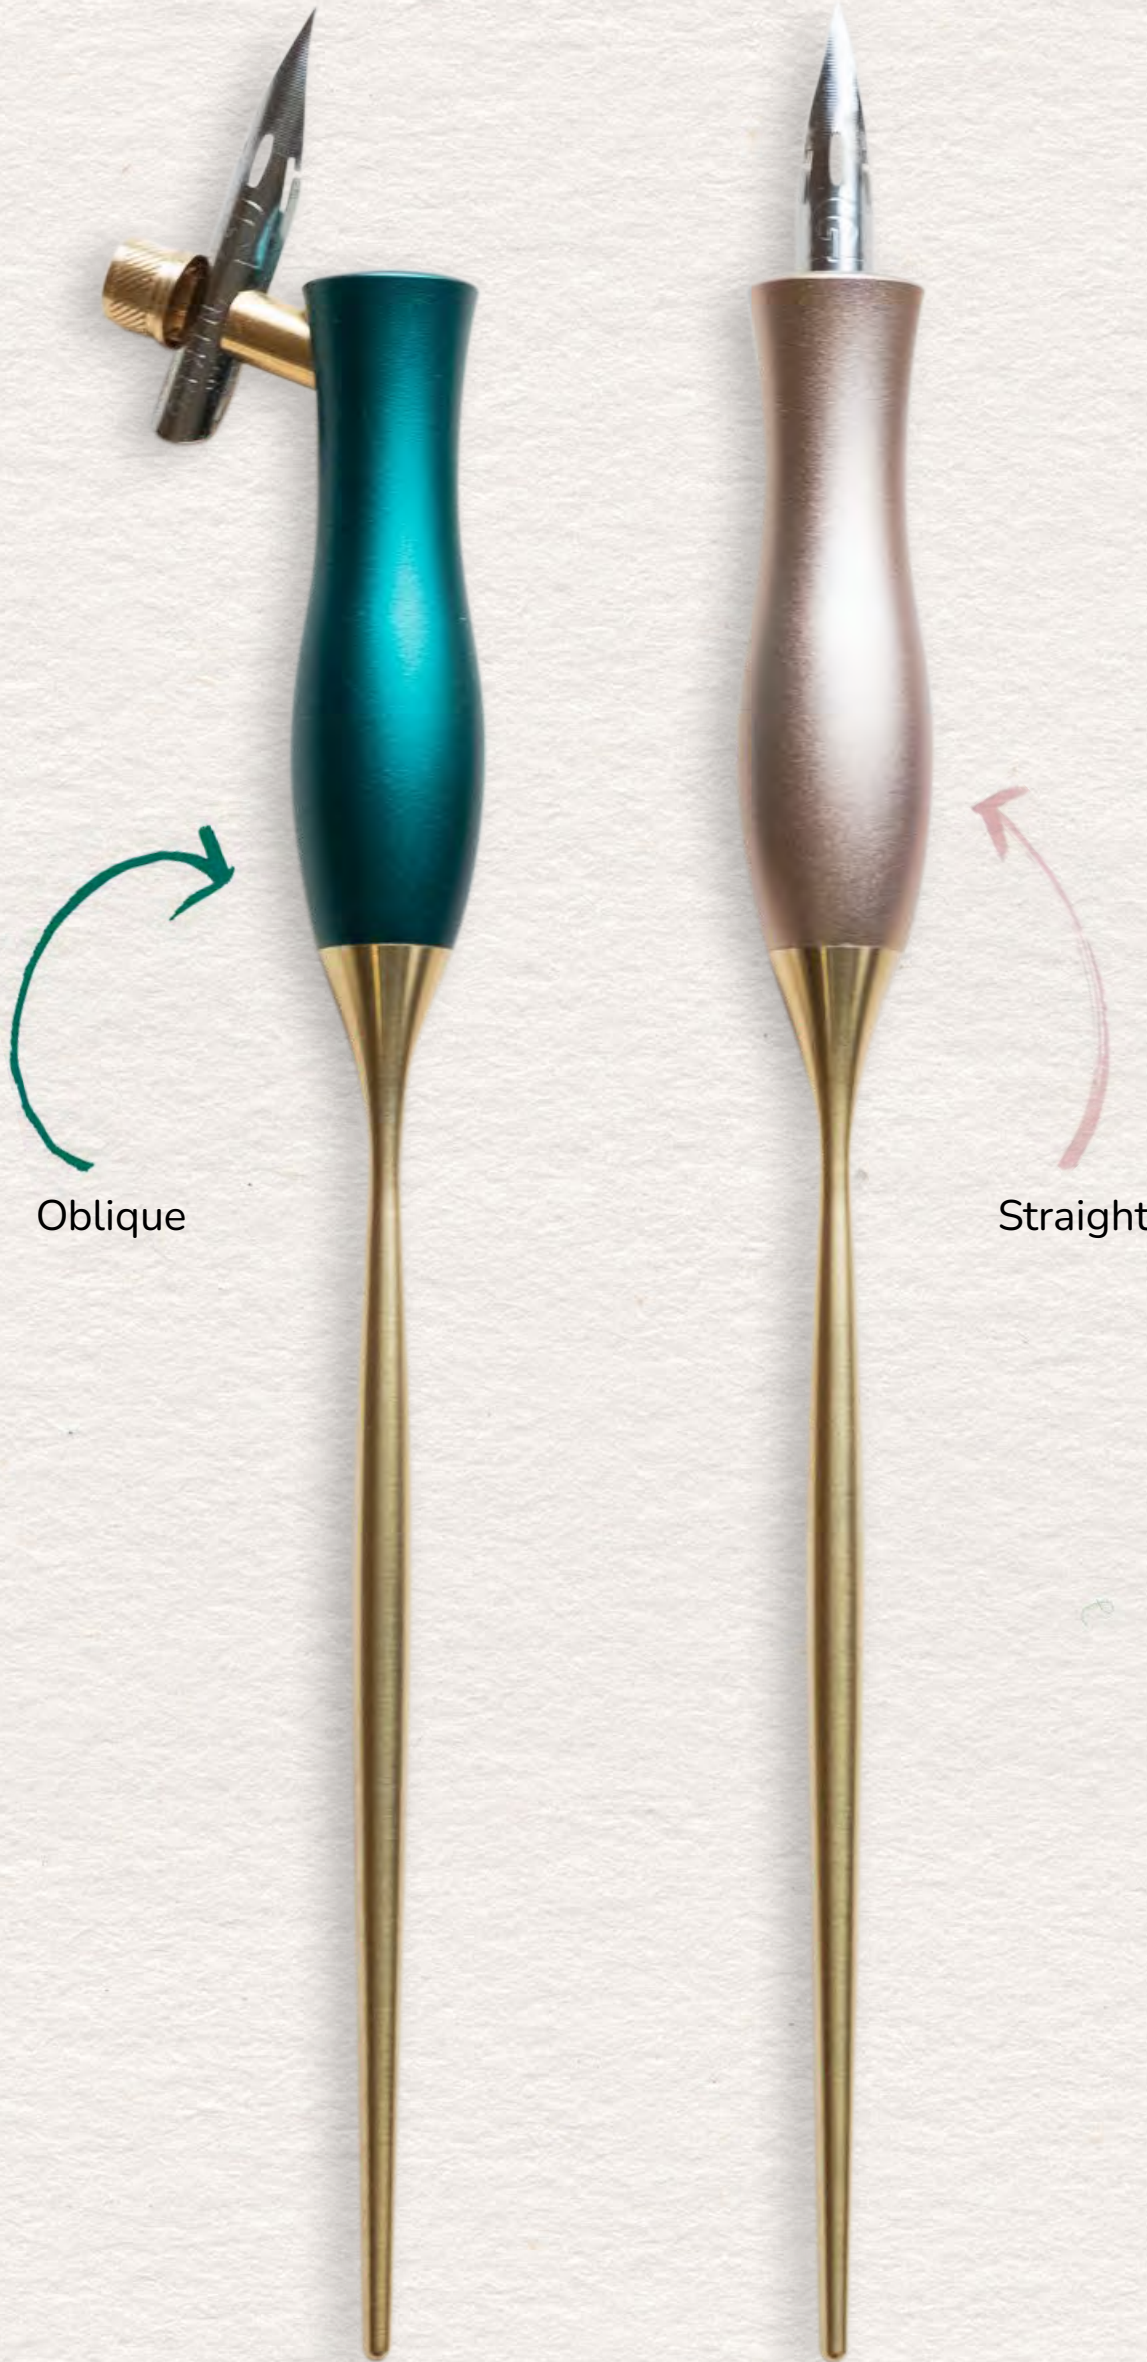

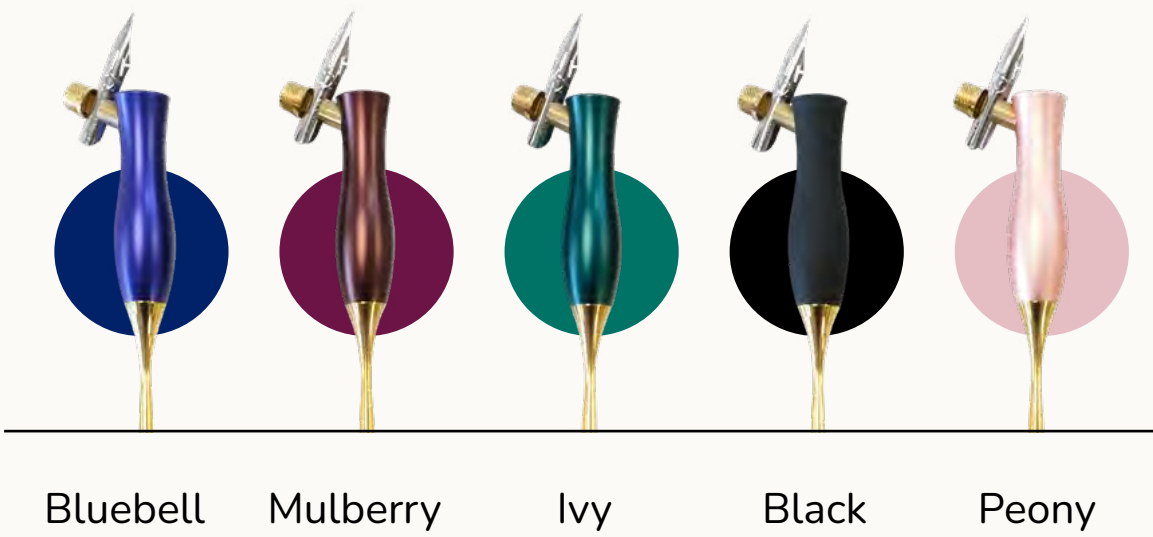

Customise the angle of the nib and swap between nibs, big or small.

Just the right amount of grip whilst feeling secure and balanced in the hand. The solid brass tail moves the centre of gravity to the centre of the pen so that you have full control.
