

Christmas Card Craft Project

CUSTOMISE YOUR CARDS!

Christmas is the perfect time to spread a little festive cheer with a handmade card! Show someone how much you care with this craft project.

You Will Need

- A4 white card
- Pack of Callicreative Aquabrush Markers and blending brush
- Jar of water
- Pencil
- Embellishments like ribbon or twine (optional)

Project time: 20 minutes
Project level: Intermediate

Christmas Card Craft Project

Step 1

Place your card in a portrait position and fold it in half top to bottom. Then use your pencil to write Merry Christmas lightly in the centre of the card. When you are happy with how it looks move on to the next step.

Step 2

Use the light green Aquabrush Marker to go over the word 'Merry'. Press harder on the down strokes of the letters to make the lines thicker and lighter on the up strokes for thinner lines.

Step 3

Take the darker green Aquabrush Marker and go over the bottom half of the letters of the word 'Merry'.

Step 4

Wet the blending brush a little and use it to blend the two green inks together.

Christmas Card Craft Project

Step 5

Use the pink Aquabrush Marker for the word 'Christmas' and then use the red one to go back over the bottom half of the letters.

Step 6

Use the blending brush again to blend the red and pink inks together.

Step 7

Leave to dry.

Step 8 (Optional)

If you want to add embellishments to your card do it once the ink has dried. We used some ribbon and decorative chain in one corner for a bit of extra sparkle. You can stick these onto your card with glue or glue dots.
