YOCKERS

**the very first  
felt tip pen**

**fitted with  
standard  
international  
ink cartridges.**

## our philosophy

Creative people, a marketing team, engineers ...  
Yookers is first and foremost a reunion between passionate people from different universes who decided to innovate together.

We believe that the truth can be found in joining ideas.

It is towards this goal that we have created our pen finding the perfect association between two worlds that at first seem opposite.

**We wished to combine the soft use of the traditional felt-tip pen together with the fluidity of fountain pen's ink cartridge.**

# Discover the very first felt-tip pen fitted with standard international ink cartridges,

A unique design with an unbeatable writing smoothness, it will follow you everywhere and you soon won't be able to do without it.

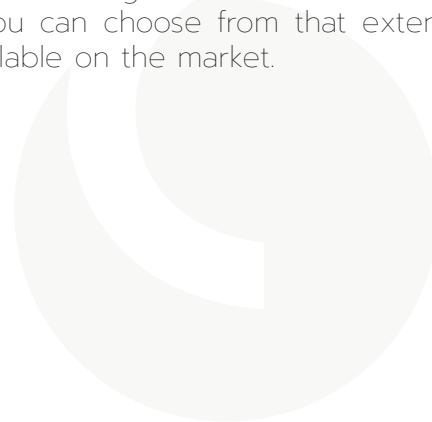

## different tips for different uses

Do you prefer thin or bold lines ? Do you need to change your tip diameter for a different use ? From 0.8 to 1.4 mm, Yookers makes it possible to easily change your tip to adapt to your need and style.

## a bit more colour in your expression

As Yookers uses widely distributed standard international ink cartridges that come in many assorted colours, you can choose from that extended colour range available on the market.

# a design just for you

Our pen range has been developed in order to suit different tastes. Whether you're classic or modern, you will find from our selection the pen that you want.

We also create special editions, trendy and chic to your own design.

**All our writing instruments are available in:**
